## Special Issue : IPS’10 -International Propulsion Symposium

### Essay
- Foreword for Special Issue "IPS'10 -International Propulsion Symposium"  
  Yoshiro Nakajima

### Technical Notes
- Method to Improve Propeller Performance Using Real-coded Genetic Algorithm  
  Jun Ando, Shiro Kataoka, Tomohiro Ryu

### Technical Notes
- High Efficiency Propellers: -NHV (Non Hub-Vortex) Propeller with Smallest Blade Area  
  Shosaburo Yamasaki, Akinori Okazaki, Kazuki Kawai, Takahiro Mishima, Nobuhiro Hasuké

### Technical Notes
- Production Efficiency and Product Quality Improvement through Factory Mechanization and Computerization  
  Etsu Dozo, Osamu Miyake, Akane Mannami

### Technical Notes
- Development of Electric Propulsion Vessels with Contra-Rotating Propeller  
  YASUHITO INAKI

### Technical Notes
- Development of Overlapping Propellers  
  Masaki Ando, Yasunori Iwashiro, Kazuki Ebara

### Technical Notes
- Tandem Hybrid CRP (Contra-Rotating Propeller System)  
  Hideshi Shimamoto, Atsushi Takada, Shoji Miyake

### Technical Notes
- Study on Composite Material Marine Propellers  
  Toshiro Toh, Makoto Nagahama, Kiyoshi Uezawa, Takahiro Mishima, Yutaka Ishihara

### Technical Notes
- What is the Best Propeller for Zero Emission Ultimate Ship (ZEUS)?  
  Noriyuki Sasaki

### Technical Notes
- Energy Saving Technology of PBCF (Propeller Boss Cap Fin) and Its Evolution  
  Takeshi Ota, Norihiro Itoh, Hidetoshi Kai

### Technical Notes
- Numerical Study on Cavitation Erosion Risk of Marine Propellers Operating in Wake Flow  
  Nobuhiro Hasuké, Shosaburo Yamasaki, Jun Ando, Akinori Okazaki

### Technical Notes
- Effect of Split Injection Pattern on Combustion and Emission Characteristics of D.I. Diesel Engine  
  THE HANSHIN DIESEL WORKS, LTD.

### Technical Notes
- Relationship between SOF and THC of Exhaust Gas of Marine Diesel Engine  
  Daisuke Hayakawa, Masakatsu Arai, Shōzō Ogasawara

### Technical Notes
- PM Reduction from Combustion of Coal Oil Emulsion - Effect of 2nd Stage Combustion  
  Osamu Nishida, Karika Kusumadhatu, Hirotsugu Fujita, Masahito Ikada, Hiromi Okamoto

### Technical Notes
- Operating Report of Super Eco Ship “Kaikomaru”  
  Mitsuei Muneta

### Technical Notes
- Development of New Type Super Eco Ship  
  Masahiro Kado

### Technical Notes
- JRTT’s Promotional Efforts for Super Eco Ship (SES)  
  Toshio Kotsuki

### Technical Notes
- Super Eco Ship with Line Shaft Contra-rotating Propeller System  
  Akihiro Saki

### Technical Notes
- Theory and Practice of Bolt Tightening Process (1)  
  Toshiyuki Franklin

### Technical Notes
- Theory and Practice of Bolt Tightening Process (2)  
  Toshiyuki Franklin

### Technical Notes
- Theory and Practice of Bolt Tightening Process (3)  
  Toshiyuki Franklin

### Technical Notes
- Basic Study of Hybrid-powered Ship - Application to Improve Plant Efficiency of Car Ferry Boat  
  Yuhi Shimazu, Yashiro Mihara, Chikako Fujita, Nobuhiro Yoneyama, Tatsuro Hayakawa, Hideo Kikawara

### Technical Notes
- PM Reduction from Combustion of Coal Oil Emulsion - Effect of 2nd Stage Combustion  
  Osamu Nishida, Karika Kusumadhatu, Hirotsugu Fujita, Masahito Ikada, Hiromi Okamoto

### Technical Notes
- TDC Determination in Marine Diesel Engine Based on Measured Non-Fired Cylinder Pressure  
  Mototomi Tatei

### Technical Notes
- Effect of Split Injection Pattern on Combustion and Emission Characteristics of D.I. Diesel Engine  
  Sadahiro Akiba, Keiji Nishinari, Xinjun Zi

### Technical Notes
- Relationship between SOF and THC of Exhaust Gas of Marine Diesel Engine  
  Shōzō Ogasawara, Masahito Ikada, Sumio Nishikawa

### Technical Notes
- Elastically Dynamic Lubrication of Stern-tube Bearings with Propeller Shaft Deflection and Misalignment  
  Toshimasa Saitou

### Paper
- Energy Saving Technology of PBCF (Propeller Boss Cap Fins) and its Evolution  
  Norihiro Itoh, Hidetoshi Kai

### Paper
- Study on Composite Material Marine Propellers  
  Toshiro Toh, Makoto Nagahama, Kiyoshi Uezawa, Takahiro Mishima, Yutaka Ishihara

### Paper
- Production Efficiency and Product Quality Improvement through Factory Mechanization and Computerization  
  Etsu Dozo, Osamu Miyake, Akane Mannami

### Paper
- Method to Improve Propeller Performance Using Real-coded Genetic Algorithm  
  Jun Ando, Shiro Kataoka, Tomohiro Ryu

### Paper
- High Efficiency Propellers: -NHV (Non Hub-Vortex) Propeller with Smallest Blade Area  
  Shosaburo Yamasaki, Akinori Okazaki, Kazuki Kawai, Takahiro Mishima, Nobuhiro Hasuké

### Paper
- Development of Electric Propulsion Vessels with Contra-Rotating Propeller  
  YASUHITO INAKI

### Paper
- Development of Overlapping Propellers  
  Masaki Ando, Yasunori Iwashiro, Kazuki Ebara

### Paper
- Tandem Hybrid CRP (Contra-Rotating Propeller System)  
  Hideshi Shimamoto, Atsushi Takada, Shoji Miyake

### Paper
- Study on Composite Material Marine Propellers  
  Toshiro Toh, Makoto Nagahama, Kiyoshi Uezawa, Takahiro Mishima, Yutaka Ishihara

### Paper
- What is the Best Propeller for Zero Emission Ultimate Ship (ZEUS)?  
  Noriyuki Sasaki

### Paper
- Energy Saving Technology of PBCF (Propeller Boss Cap Fin) and Its Evolution  
  Takeshi Ota, Norihiro Itoh, Hidetoshi Kai

### Paper
- Numerical Study on Cavitation Erosion Risk of Marine Propellers Operating in Wake Flow  
  Nobuhiro Hasuké, Shosaburo Yamasaki, Jun Ando, Akinori Okazaki

### Paper
- Effect of Split Injection Pattern on Combustion and Emission Characteristics of D.I. Diesel Engine  
  THE HANSHIN DIESEL WORKS, LTD.

### Paper
- Relationship between SOF and THC of Exhaust Gas of Marine Diesel Engine  
  Shōzō Ogasawara, Masahito Ikada, Sumio Nishikawa

### Paper
- Elastically Dynamic Lubrication of Stern-tube Bearings with Propeller Shaft Deflection and Misalignment  
  Toshimasa Saitou

### Introduction of Works
- THE HANSHIN DIESEL WORKS, LTD.  
  Issa Honda

### MC Fundamentals
- Super Eco Ship  
  176
