SPECIAL ISSUE: 50th Anniversary for Establishment of the Japan Institute of Marine Engineering

Foreword
Message from the President to Celebrate the JIME's 50th Anniversary
Tamei Takamasa

Congratulatory Message
NIPPON KAIJI KYOKAI Representative Director, Chairman and President
Keiichi Fujimaru
National Institute of Maritime, Port and Aviation Technology President
Hiroyuki Yamato
Tokyo University of Marine Science and Technology, School of Marine Technology
Tatsuo Tsukamoto
GRADUATE SCHOOL OF MARITIME SCIENCES, KOBE UNIVERSITY
Masato Uchida

Special Lecture
Engaging with the JIME for 40 Years
Toshio Hikima
50 Year History of Marine Engineering - From an Engine Manufacturer's Perspective
Yasuhiro Ito

Report

Contents

Product Information

History of Miura's Ship Machinery Division
- Boilers, Incinerators and Ballast Water Management Systems
Masashi Kikuchi .............................................. 132

Explaination

History of Alfa Laval's Marine Auxiliary Boilers
- Its Activities in Japan over the Last 50 Years
Toshio Taji ...................................................... 134
Development History of Turbochargers
Toshikazu Takaya ........................................... 136
MH1's Challenge in Increasing Its Turbocharger Pressure Ratio
Keisichi Shiraishi ........................................... 138
Development History of SHINKO's Marine Pumps
Kazunobu Hira .............................................. 140
Shifting from Marine Pumps Only to Wider Range of Pump Manufacturing
- 60 Years of Our History with Marine Pumps
Masashi Nakamura ....................................... 143

Product Information

Development History and Future Prospects of Marine Pumps
Shigeki Kitano .............................................. 145

Explanation

Development History of Plate Heat Exchangers for Marine Use
Masahito Ota .................................................. 147
Evolution of Alfa Laval's Plate Heat Exchangers
- From Introduction to Technical Innovation
Akira Egawa ................................................. 150

Report

Recent Developments in Hitachi Nico Transmission's Marine Reduction and Step-up Gears
Chikaya Yoshida ............................................ 152

Explanation

Development History of KAMOME Controllable Pitch Propeller
Junichi Suzuki ............................................... 154
Development of High-efficiency Propeller and Energy Saving Devices
Yoshitaka Okado ............................................ 156
Development History of Main Engine Remote Control Systems
Keisuke Takeshita .......................................... 158

Essay

Changes in Maritime Equipment
- 50 Years of History in Marine Electric System
Yukinori Itagaki ............................................. 160

Explanation

Transition of Marine Monitoring Systems
Yasunari Kawamoto ....................................... 162
Transition of Marine Fuels and Progress in Marine Lubricants over the Last 50 Years
Shigeki Takeshima ........................................ 164
Recent Trend in International Environmental Regulations
Eiichi Muraoka ............................................. 168
Recent Trend in Advanced Marine Technologies
